

PROFESSIONAL SUMMARY

I am a versatile computer engineering student adept at bridging the gap between the technical and business realms. With a passion for Website Development, Cyber Security, and Business, I thrive in roles that require a comprehensive understanding of both worlds. As a fast learner and natural team leader, I embrace challenges and am driven to deliver exceptional results. In addition to my technical skills, I am deeply committed to social development projects. I firmly believe that knowledge knows no bounds, and I am constantly seeking opportunities to expand my expertise and contribute to meaningful initiatives.

Let's connect and explore opportunities to collaborate on projects that combine my technical expertise, business acumen, and passion for social development. Together, we can create a brighter future through the limitless power of knowledge.
